Lenson, Tuesday evening, March 18.—The English Sunds have again been flat to-day, in consequence of the continued realization of stock. Money continues in good supply on the Stock Exchange. In the discount market also there is increased ease, although nothing is done also there is forcessed case, attricular nothing is dense below six per cent. A statement has been circu-hated in Ireland that the great bulk of the Eag-lish shareholders in the Tipperary Bank are te-nants of Baron Rothschild, who purchased of Mr. Sadier about elevan hundred shares at £11 each, and re-sold them at £12 led. The Preeman's Journal observes in relation to it that the fact that the eminent capitalist was duped by Mr. Sadlier is a remarkable one. Any con-tradiction of the story is unnecessary in London, but for. Irish readers it must be mentioned that Baron Rothschild never had a business transaction with Mr. Sadlier, nor was be ever interested in any undertaking with which Mr.

Lordon, Tursday, March 18—Two e'clock P. M.—The money market has emicited a disposition towards increased ease during the last day or two, the demand for siscount accommodation being less argent than for some time previously. There is, however, not much hope entertimed of a reduction in the rates charged by the Bank of England at present, but it is considered that no harm can arise from the removal of the restriction which was imposed by the directors of that institution with regard to the dates of bills offseed for discount. Unquestionably the ctrcumstances which the directors of the Bank of England considered sufficient to induce them to fix 96 days as the longest period for bills to run which they would discount, have passed away in a great measure, and as there is at present no apparance of an extraordinary drain of buildion setting 10, it is conceived that the removal of the restriction as to the period which bills may have to run that are offered for discount would not be in any respect dangerous, whilst to the majifity of merchants it would be a sensible same breation. The payment of his next instalment of the loan will not take place before the 29th inst, and during the interim it is hoped that the directors of the bank will take some steps to ameliorate the pressure which the present high rates of money necessarily produce, and which is feet most severely by persons engiged in commercied cestings with foreign countries.

Indian corn, and 2,000 bbls. flour. The exports in the same time comprise 830 qrs. wheat, 187 qrs. cats, 4 254 qrs. Indian corn, 679 sacks and 1,010 bbls. flour. There has been a good business dung in every article of the trade sin e Tuesday last, and prices have experienced a further improvement. The wind having become more southerly, some rain has falien and the wather is mider.

At this day's market there was a small attendance of the town and country trade, and wheat met with only a limited retail demand, at an advance of 3d. to 41. pgr 70 fbs. on the prices of Tuesday, for fine qualities, but only 1d. to 2d., per 70 lbs. on interior. Flour was difficult to move, although offered on former terms. Oats sad oatmeal may be quoted 1d. per 45 lbs., and 6d. pyr load dearer, but with a slow sale. Barley, beans and peas remained without alteration in value. FINANCIAL AND COMMERCIAL MOREY MARKET.

WEDNESDAY, April 2—6 P. M. The news from Europe has had no effect upon the stock market. The operations to day were limited, without

much charge in prices. At the first board Nicaragua good M per cent; Hudson Railroad, 1. Can ton Company fell off 1/2 per cent; Erie Railroad, 1/4; Chisego and Rock Island, %. This stock soll to-day at 91 per sent, dividend of four per cent off. The last sale was at 96% per cent. Blinois Central Railroad bonds sold to extent at the first board, at improving prices. They opened at 88%, and closed at 88% per cent. Erie Rallroad opened pretty steady at yesterday's prices, but fell off towards the close, with moderate sales. Hudson Railroad was better to-day. The prospect of the bridge bil passing the Legislature is the cause of the advance in this stock. The inflation will be but a temporary affair. Cleveland and Toledo opened at 80 per cent, and slosed firm at 80%. There have been large transactions in this at ck lately, and the purchases, buyer's option. must be at this moment in the aggregate very great. Wisconsin Lake Shore Railroad is one of the

steadlest s'ocks on the market. The absorption is going

or gradually but steadily. The earnings have this sea-

son been far in excess of the anticipations, and a large semi-annual dividend to cash is sure for July. The pricipal business of the o mpany is in parcengers, and it . well known that there is no more profitable traffic on sailreads. Milwankie and Mississippi Paitrond is rapidly securing one of the most favorite investments in the market. The completion of the road to the Mississippi river is guaranteed this year, and it is good for dividends during the year 1856 of at least flitteen per cent. Nicaprema Transit opened and closed to-day fism at 14 per The Star of the West brings Intel igence that confirms all that has been said relative to the Walker, Garrison, Morgan and Randolph conspiracy. Judge Cushing, the Transit Company's agent, writes from Nicaragoa that in an interview with Walker, he was informed that the Transit Company's charter would not have been cancelled but for representations made to him by certain parties in New York. Walker stated that he was very much in want of money, and he was given to understand that he sond force is out of the Transit Company by seizing its properly and annulling its charter. It is well known here whe gave him that advice. rate suits sgainst Charles Morgan, to recover the losses they have surtained by his alleged complicity while so: ing as the company's egent, in the late relaure of the company's property at Nicaragua. Other parties are commencing suits to recover any loss they may ultimately suffer. If the stock advances and they can resites prices pairl, we land good; but if prices go down or the main down, so that no hope of recovery is left, they istend apps aling to the law for redress. These parties have taken to sir stock and paid Morgan or his broker for it, and wil. hold it a reasonable time before proceeding to such extremities. It will only be as a decuter resort un-

NEW YORK CATTLE MARK ET.

WEDNESDAY, April 2, 1856.
The cattle market opened this morning with considerable animation. On taking a survey of the pensit was apparent that the supply of beeves was extremely limite"; particularly of good descriptions, and buyers were very active in making their selections. Upon enquiry it was ascertained that the number offered for sale was much ss than required for the usual weekly consumption—bs giving increased stringency to prizes. But few that could be called really fine cattle were to be seen, and they were generally held above the views of buyers. One very were generally held above the views of buyers. One very fine pair of oxen attracted much attention, and would have sold for something above the current races for what are denominated extra. A lot of very fine Pennsylvania cattle sold at an average of \$11 per hundred. The majority of the cattle offered were from common to good, with many that were very inferior. No caure was assigned, so far as could be learned, for the short supply on the market, which is attact to require upwards of 2,500 for weekly consumption. With the high prices ruting tor beef, the constant demand, and the great lacill ise for bringing cattle to market afforded by railroad and water communication, there is no good reason why a sectain supply should not stall times be found within our cattle yards. The presumption is that a sore wis losse somewhere, and that the subject is one requiring the strictest serntary. This market should be controlled by no other agence than the legitumate laws of trade, which of themselves are amply sufficient to ensure a plentiful supply at all eastons, and at the same time do justice to all parties. Susep and lambs were also in poor supply, and many of them were not not our quotations of actual sites made at Beauring's. Gove and cauves brought good prices, according to quality. Many were very inferior, with a few remarkably good ones, which were held at a high figure—one particularly as high as \$80. Large quantities of vest muttor, &n, will soon be received by the boats running on the North river, from localities between this of y and Al bany, and it is prebable we shall be pretty well supplied during the season from that source.

Below we give as accurate a report of the prices as sould be obtained: fire pair of oxen attracted much attention, and would
